

INTRO TUTORIAL SCENE DIALOGUE

As your ship enters the screen the engine breaks and ship stops.

Captain B

Oh come on, not again! Angie, what's going on?

Chief Engineer Angie

Me and Nova are headed down to the engine room to check it out.

(Instructions for player on how to move crew members)

Player does this. Then engine starts running again.

Chief Engineer Angie

Propeller shaft was stuck. We're good to go again.

Captain B.

Give me full speed ahead.

(Instructions for how to switch gears)

Player drives the boat for around 10 seconds. Then following dialogue:

Chief Engineer Angie

It's not looking good, Benji. We should turn back.

Captain B.

And go where, Angie? Just stay the course. It has to be here somewhere. Did you double check the coordinates?

Chief Engineer Angie

Four times. There is nothing here. The ocean swallowed it just like it did the rest of the world. Can we please just head back south? I'm tired of freezing all the time.

Captain B.

We're NOT spending the rest of our lives on this ship, Angie. We will get there!

Angie

Whatever you say...

Player keeps going until the Last Peak actually appears in the distant. Then:

Chief Engineer Angie

I can't believe it...

Cutscene starts. Camera zooms in and title of the game appears on screen as **main theme plays.** (20 sec long according to Guanting).

Then back to the ship and following dialogue:

Captain B.

We found it! In your face, Angie!

Chief Engineer Angie

The peak of Mount Everest. I haven't seen such landmass since Sofie was...

Captain Benjamin

Listen to me. As soon as we get off of this ship, we will build a monument in your daughter's memory. But first, we need to get through those chunks of ice so I need you to stay focused. Is everything in order with the ice breaker?

Chief Engineer Angie

Yeah, the twins took care of it. We are as ready as we can be.

Captain Benjamin

Then this is it, everybody! Looks like we actually are setting foot on land after all of these years.

You cut through the ice blocks. Then the final boss ship shows up through the fog. **(Boss soundtrack starts).**

Chief Engineer Angie

What the--

ENEMY FIRES FIRST.

Captain Benjamin

Rob, Nova, return fire!

(INSTRUCTIONS ON SCREEN FOR BATTLE)

You fight back, but eventually you lose the battle. Your ship starts sinking.

Captain

We got a breach! Everyone, jump ship!

FADE TO BLACK as we hear more cannon shots and screams.

FADE IN. (TELEPORTED TO REAL MAP) Captain B is on a new vessel – a small boat.

No one else is to be found.

Captain B

What... What happened...

Captain B

Angie? Jakob? Anyone out there?

Captain B

I need to find them. Hope this piece of crap works.

The small boat's engine starts running.

Captain B

Alright, here we go. Please be alive guys. I'm coming.

END INTRO. Mission Starts.
