### KEY QUALITIES

Team Player  
Quick Learner  
Great Imagination  
Creative

### LANGUAGES

Swedish, Native  
English, Fluent  
Persian, Fluent

### PERSONAL SUMMARY

As a passionate and driven individual, I am constantly seeking to expand my horizons and staying keen to learn. I am fascinated by narratives and soundscapes of different kinds. Writing compelling stories and creating immersive soundscapes are crafts I pursue fully and I strive to put my two passions as a narrative designer and sound designer into use in the gaming industry.

### EDUCATION

#### Game Designer

Futuregames, Stockholm

2021 - Ongoing

- **Learning by doing** mentality & team building game projects
- Practical courses, lectures held by industry specialists

This education has greatly improved my understanding of all disciplines involved in game dev and while I am broadening my skillset as a game designer, I am mainly focused on **narrative design** and **sound design**.

*An example of a project I have worked on during this education:*

- **The Last Peak.** This 7-week game project consisted of a team of 12 students. This experience team taught me the importance of standup meetings as these helped us develop **strong communications** and an **efficient work flow**. Further, writing the **story**, implementing **dialogues**, creating **sound effects** and composing **music** were all great challenges I learnt alot from during this project.

#### Creative Writing & Storytelling

Folkuniversitetet, Stockholm

2019

- Focused on **story telling** and structure
- Creating convincing characters & lore

#### Writing & Film Studies, (Bachelor's Degree)

Örebro University

2012 - 2015

- Creating working narratives
- Film production & theory

#### Film Institute of Technology

Musicians Institute, Los Angeles

2008 - 2009

- Script-Writing & Video Editing
- **Sound Design** & Post-production

### WORK EXPERIENCE

#### Language Teacher

Magelungen Utveckling

2016 - 2020

My time as a teacher greatly developed my understanding of **team work**. The value of this trait cannot be stressed enough, especially when multitasking and mentoring young students.

### AWARDS

#### Outstanding Film Project 2009 Award

*Film Institute of Technology - Musicians Institute, Los Angeles*

I received an award for best final project - a short film I wrote and produced.
